BOOKS IN PRINT

Using BIP to Recommend Library Purchases
Books In Print (BIP) is a source for out-of-print, forthcoming, and in print materials. Audio-visual and electronic materials are included in the database. It provides the publishing and availability information that the Library needs to order these materials. You can begin your search at the MCC Library website.
Choose **Research Help** on the left side of the screen. You can also choose **Databases** below the text box.
Choose the tab for “B” and click on Books In Print.
On the BIP website you use the text box at the top of the screen to search for a book by the title, author, or ISBN.
The Advanced Search screen can be used to search by subject, or keyword. You can also narrow your search by specifying language, format, etc.
Once an item is located in BIP, you can choose the **E-mail** feature on the blue banner across the top of the screen.
You can send your recommendation to Terri Hugo, Collections & Resource Management Librarian at thugo@mclennan.edu or your Library Liaison. Please include a note in the Message box with your name and class for which the book is recommended.
The McLennan Community College Library welcomes purchasing suggestions from MCC faculty, staff and students. Keep in mind that all purchase requests will be considered according to our Collection Development Policy.

Thank You for your interest and support of the MCC Library.
